

GLOUCESTER COUNTY WASTEWATER MANAGEMENT PLANNING

The Gloucester County Board of Chosen Freeholders has accepted responsibility for developing a wastewater management plan for the unconsolidated portion of the county, which covers all or parts of 11 Gloucester County municipalities: Elk Township, East Greenwich Township, Franklin Township, Greenwich Township, Harrison Township, Logan Township, Monroe Township, Newfield Borough, Swedesboro, South Harrison Township, and Woolwich Township.

Preliminary, draft sewer service area mapping has been prepared by Churchill Engineering Consultants, in coordination with and reviewed by the New Jersey Department of Environmental Protection (Department), Gloucester County and the affected municipalities. The drafts are subject to change in response to information provided by the public. The preliminary working draft maps may be accessed at www.gc-wmpmaps.com.

A **public meeting** to discuss any proposed changes in sewer service designation has been scheduled for Monday, March 21, 2011 from 5:00PM to 8:00PM in the auditorium of the Gloucester County Office of Government Services, located at 1200 North Delsea Drive, Clayton, New Jersey. For directions go to <http://www.co.gloucester.nj.us/government/Departments/PublicWorks/directions.cfm>

The Department and County will accept comments and information related to this mapping until Thursday, April, 21, 2011, 30 days after the public meeting. Based on the information received, final adjustments may be made. There will be an additional formal public comment process prior to adoption of the completed wastewater management plan.

Written comments on the draft mapping may be submitted to:
