Construction Notice
County of Gloucester
Rt. 322 Mullica Hill Bypass-Stage II
Harrison Township

**Stage II Roadway Construction for the Mullica Hill Bypass
Swedesboro Road and North Main Street
Harrison Township, Gloucester County**

The County of Gloucester will be starting the Stage II Roadway Construction for the Mullica Hill Bypass on Tuesday February 15, 2011. Work will include improvements and widening at the Intersection of Swedesboro Road and North Main Street.

The Project: The purpose of this project is to construct the second stage of the Mullica Hill Bypass. This phase of construction will include roadway and safety improvements at the intersection of Swedesboro Road and North Main Street.

Gloucester County has contracted JPC Group, Inc. to construct the Stage II Mullica Hill Bypass Project.

The project will consist of the construction of the final phase of the Mullica Hill Bypass. This will entail the construction of precast concrete culverts, retaining walls and stormwater management facilities. The project also will consist of the milling, widening and resurfacing of a portion of Swedesboro Road and North Main Street and include installation of a new traffic signal at this intersection. There will be variable message boards utilized on this project to keep residents informed of roadway construction.

Residents shall have access to their driveways at all times. Driveway aprons within the project limits shall be maintained by the contractor during construction.

Project Status: The contractor will begin construction on or about February 15, 2011. This project is anticipated being completed within 360 days after the start date.
